

PROFILE

Software engineer and founder specialized in building the **infrastructure layer of AI** — the platforms, orchestration engines, and retrieval architectures that make large language models do useful work inside real businesses. I design platforms end-to-end (schema, services, agent orchestration, retrieval pipelines, multi-tenant billing, and UX) and lead them from zero to one, setting technical direction and shipping production-grade systems across SMB and enterprise markets in MENA.

EXPERIENCE

- Founder & Software Engineer

AI Platforms & Automation Systems

2025 – Present

- Lead design and development of AI-driven platforms focused on business productivity.
 - Own AI system architecture, automation platforms, and scalable SaaS infrastructure.
 - Build knowledge-based retrieval systems, enterprise integrations, and end-to-end deployment.
- Project Manager & Product Architect

Akwadx Software Agency

2024 – Present

- Lead architecture and development planning of software systems for startups.
 - Provide technical leadership across cross-functional teams and drive product strategy.
 - Design high-performance backend infrastructure.
- Founder

Rehlat Uhud – Online Travel Platform

2023 – 2024

- Built an end-to-end travel booking platform with itinerary planning.
 - Delivered supplier integrations and a multi-tenant admin layer.
- Founder

Tourel Tourism – Tourism Technology

2022 – 2024

- Designed the platform architecture, booking engine, and operator tooling.
 - Connected tour operators with travelers across the booking value chain.
- Founder

Al Rayah – Delivery Platform

2020

- Built a last-mile delivery startup: dispatch, courier app, and merchant dashboard.
- Founder

Kayan Beauty – Beauty Technology

2018 – 2020

- First commercial venture connecting beauty service providers and customers.
 - Foundational experience building, shipping, and iterating products.

TECHNICAL SKILLS

AI & LLM	Claude API, OpenAI, Gemini, LangChain, LangGraph, LlamaIndex, CrewAI, Pydantic AI, Ollama, vLLM, MCP
Vector & Retrieval	Pinecone, Weaviate, Qdrant, Chroma, pgvector, FAISS, Milvus, Hybrid Search
Languages	TypeScript, Python, JavaScript, Go, Rust, SQL, Bash
Frontend	Next.js, React, React Native, Expo, Tailwind CSS, shadcn/ui, Framer Motion, Radix UI
Backend & APIs	Node.js, FastAPI, NestJS, tRPC, GraphQL, gRPC, WebSockets, Kafka, RabbitMQ, Temporal
Data & Storage	PostgreSQL, Redis, MongoDB, Supabase, Prisma, Drizzle, ClickHouse, S3
Cloud & Infra	AWS, GCP, Vercel, Cloudflare, Docker, Kubernetes, Terraform, GitHub Actions
Architecture	Multi-Tenant SaaS, Microservices, Event-Driven, CQRS, DDD, Agent Orchestration, RAG, Observability

EDUCATION & LANGUAGES

B.Sc. Software Engineering Üsküdar University, Istanbul • 2022 – Present	Pashto	NATIVE
Self-Directed Engineering 2018 – Present AI systems, software architecture, and SaaS platforms — learned by building and shipping real products.	Arabic	NATIVE
	English	PROFESSIONAL
	Turkish	ELEMENTARY
	Urdu	ELEMENTARY
